4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The measurable goal is to disseminate as many stormwater brochures as possible to the public. The brochures discuss the impacts and sources of stormwater runoff pollution, and also describe what can be done to minimize the impact.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Brochures in English and Spanish were distributed to various target audiences. They were handed out during school programs and at fairs/festivals. They were displayed in kiosks in municipal county buildings and at all 62 libraries. A total of 6658 brochures/student activity pages were distributed in this reporting period. Efforts were made to track where and when brochures were distributed. We augmented our Spanish flyer effort by increasing the number distributed this year to 1502.

C. How many times was this observation measured or evaluated in this reporting period?

6	6	5	8
---	---	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting cycle is to disseminate a similar number of brochures/activity pages. This will be done throughout the permit year, with periodic bulk mailings to libraries and municipal buildings. In addition, we will specifically track who, where and when brochures are disseminated to. Focus again will be with distribution of Spanish flyers.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Air as many public service announcements (PSAs) on radio and local government public TV stations as the budget will allow.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Radio PSAs were conducted from April 21 to May 11 2014 on WBAZ radio and WEHM radio. The one minute PSA was aired 96 times during high rating times from 7am to 7pm. The subject of which was stormwater pollution prevention practices. In March 2015 another week of PSAs on lawn care was aired with a total of 20 one minute spots, bringing the total for the year 116 PSAs. This past year we had less PSAs but they were aired during more prime times.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To obtain school teacher surveys in an attempt to assess the value of the in-school classes. Evaluation forms give us an indication as to what teachers feel the students learned and provide suggestions to improve the presentations.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

In the past year a total of 13 teacher evaluation forms were completed by teachers. This is a typical return rate for a reporting year. We hoped there would be an increase but teacher's responses are unpredictable. The completed evaluations were very helpful in summarizing what teachers felt were important parts of the stormwater program and ways we can improve the program to fit into their curriculum.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The goal was to reach as many school students as possible within the municipality and have more than 50% of programs reach students from schools in TMDL watersheds.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

An extensive number of school presentations were again implemented. Presentations focused on nitrogen and bacteria, which are pollutants of concern, and have TMDL goals. During this reporting period, 3225 school students were reached during 147 school presentations. We reached our goal for number of students and programs conducted. This year 69% of programs reached students from schools in TMDL watersheds.

To maintain the stormwater website (www.suffolkstormwater.com), track visitor numbers, maintain or increase numbers of visitors to the website, and update or add new content.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

A total of 9263 unique visitors logged on to stormwater website and loaded 17778 pages. The pages on septic systems had the most visitors with 4162 visitors and spent an average of 4 minutes on that page. Additions to website included posting of time sensitive information on the home page (annual report public comment periods, dates of erosion and sediment control trainings for contractors). A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

One goal for this reporting period was to conduct stormwater programs for civic groups/associations, local garden club members and/or environmental groups, with a focus on pollutants of concern and using rain gardens and rain barrels, to reduce stormwater runoff.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Conducted presentations involving an environmental land preservation group on rain gardens and another civic group reaching 26 people.

Continue to reach out to civic groups and garden clubs and focus again on the remaining groups who have not participated in past stormwater presentations. The plan is to continue to reach as many local groups as possible during the next reporting cycle. Try to contact civic groups where programs had been conducted 8-10 years ago to see if interested in a program again. Reach out to libraries so we can get on their printed schedules.

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The goal for this reporting period was to remove and dispose of as much debris as possible from stormwater infrastructure.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

An extensive amount of debris is removed from stormwater infrastructure each year. In the current reporting year, 2949 cubic yards of debris was removed.
